Medical Science & Computing

Bethesda, MD

Contractor for the National Center for Biotechnology Information (NCBI) working on PubMed. Implementing interactive features while championing UX and accessibility compliance. Refining exhaustively thorough and high fidelity interface mockups that meet acceptance criteria. Writing acceptance, integration, and unit tests.

Chief/Bytecubed

Washington, D.C.

Creative Technology Agency. Building the next generation of PubMed, a hub for world-leading research in the life sciences and a robust and performant search engine for biomedical literature. PubMed Labs is supporting over 6 million unique daily active users globally. National Institutes of Health campus in Bethesda, Maryland.

Mvix

Sterling, VA

Digital Signage Turnkey Solutions Provider. Rapidly prototyped custom widgets consisting of responsive layouts, third-party RESTful API integrations, and animations. Initiated version control with Gitlab, and adopted an application framework complete with routing, state management, and build tooling.
