Chief/Bytecubed

Washington, D.C.

Creative Technology Agency. Building the next generation of PubMed, a hub for world-leading research in the life sciences and a robust and performant search engine for biomedical literature. PubMed Labs is supporting over 6 million unique daily active users globally. National Institutes of Health campus in Bethesda, Maryland.

Mvix

Sterling, VA

Digital Signage Turnkey Solutions Provider. Rapidly prototyped custom widgets consisting of responsive layouts, third-party RESTful API integrations, and animations. Initiated version control with Gitlab, and adopted an application framework complete with routing, state management, and build tooling.

Telliscope

Arlington, VA

Social Platform for entrepreneurs and investors in Africa. Branded an original iconic logo and accompanying wordmark. Gathered and transformed requirements into a clickable high fidelity prototype. Conducted remote and in-person testing. Iterated countless times, resolving issues and incorporating feedback at every turn.
